

Using ICT in Teaching Languages

Digital Technologies for Language Teachers and Educators

This 5-day training program is designed for language teachers and educators who want to integrate Information and Communication Technology (ICT) effectively into their teaching practices. The course provides a comprehensive overview of various digital tools and strategies to enhance language learning and teaching.

Course Overview

This intensive program covers a wide range of topics, from foundational Web 2.0 tools to advanced strategies like gamification and flipped classrooms. Participants will gain hands-on experience with various platforms, apps, and techniques to create engaging and effective learning experiences.

Key Topics:

- Web 2.0 Tools
- Educational Platforms
- Language Learning Apps
- The 4Cs Skills
- Digital Storytelling
- Gamification
- Flipped Classroom
- Google Forms

The course is structured to provide a balanced mix of theoretical knowledge and practical application. Through workshops, discussions, and hands-on activities, participants will learn how to:

- Select and integrate appropriate digital tools.
- Design interactive and engaging language lessons.
- Foster creativity, collaboration, communication, and critical thinking (the 4Cs).
- Develop digital storytelling projects.
- Incorporate gamification elements into the classroom.
- Implement a flipped classroom approach.
- Utilize Google Forms for assessment and feedback.

Learning Outcomes

Upon completion of this program, participants will be able to:

- Confidently use a variety of Web 2.0 tools and educational platforms.
- Design and implement effective language lessons using digital technologies.
- Integrate the 4Cs skills into their teaching practices.
- Create engaging digital storytelling projects.
- Apply gamification techniques to motivate students.
- Implement a flipped classroom model to enhance learning.
- Effectively use Google Forms for assessment and data collection.

Target Audience

This program is ideal for:

- Language teachers at all levels (primary, secondary, tertiary).
- Language educators and trainers.
- Curriculum developers.
- Anyone interested in integrating ICT into language teaching.
